Project Update: May 2012

Nepali year calendar of 2069 with snow leopard conservation messages has been published and distributed in snow leopard range of the country. This educational material has also highlighted different green days that are celebrated in Nepal and in the world. With the initiation of Rufford Small Grant Foundation funded project "Human snow leopard conflict mitigation project-II", the publication was jointly published by another international organization, Snow leopard conservancy and two other national organizations, Biodiversity Conservation and Research Forum and Green Governance Nepal.
