

Project Update: November 2012

Saiga News-16 is under preparation now. Draft of contents has been agreed. Articles and other material (updates, announcements, etc.) in both Russian and English have been collected and edited. Implementation of the peer review system for improvement quality of SN articles is in process. We selected four experienced editors from three countries: E.J. Milner-Gulland and David Mallon (UK), Anna Luschekina (RU) and Yuri Grachev (KZ). In terms of improvement of design and access we agreed to develop both printable PDF version and on-line HTML version of e-bulletin. Responsibilities on design were shared between Elena Bykova and Anthony Dancer. *Saiga News* has been presented at CMS workshop on trans-boundary cooperation for the conservation of argali on December 3rd 2012 as important instrument of the coordination of the Saiga MoU.
