

Project Update: June 2013

A REPORT ON HEAD-TEACHERS' TRAINING WORKSHOP OF CHILDREN FOR NATURE PROJECT HELD ON THE 20TH JUNE 2013.

The workshop had 15 participants; topics included various aspects of nature conservation and management of school projects, funding, partnerships and networks, and various aspects of monitoring and evaluation. The main aim of the training workshop was to build capacity and bridge the knowledge gap between head-teachers and nature club teachers on nature conservation, and the participants were all delighted at the awareness, information and skills they acquired from the workshop. Various steps to ensure cordial partnerships and sustainability of school projects were discussed. Evaluation forms were handed out to the participants at the end of the workshop and we hope to get feed backs from those. Certificates of participation were awarded to each participant at the end of the workshop.
