

## **Project Update March 2016**

### **Brief report on work done and findings between January 1- March 31, 2015**

During the period from January to March 2016, I focused on consolidating and analyzing the data collected between April – December 2015, in order to prioritize areas where Purple frog populations are facing huge threats. Results, conclusion and future objectives will be provided in the final consolidated report.
