

དོམ་དང་ དེའི་འབྲུམ་ས་ཚུ་  
ཉམས་སྲུང་ མཛོད་གནང་།

Himalayan black bear (*Ursus thibetanus*)  
is Vulnerable in the wild.

Save it's habitat from deterioration and  
save the species from extinction.

Habitat degradation caused by  
encroachment of human  
population, forest fires, felling  
of trees for timber and fuelwood,  
installation of transmission lines,  
grazing.  
Retaliatory killing of the animal  
Poaching

“Lets strive to thrive in harmony with our friends in the wild.”
