

### **Project Update: August 2016**

The last educational workshops were held from August 29th to September 1<sup>st</sup> 2016. The topic was "Coral Reefs". Workshops were executed in Escuela Rural Mixta El Quetzalito and Escuela Adventista of Livingston. This time we did educational activities such as puppet shows, storytelling, books of environmental education (colouring books) and a special presentation about sharks. We donated 414 books named "Angela Explorando el Arrecife" and 414 "colouring books of coastal and marine resources", furthermore, 100 copies of Timmy. We held the last evaluation of the project and we are happy to announce that children increased their perception and positive attitudes about marine and coastal resources in an average of 10.82%.
