**Project Update: November 2016** 

## Educational talks for primary students, youth and local community leaders, based on "needs and actions for the Sanctuary":

## Campaign to reduce marine debris

Signage, social media and communications on the importance of using a personal (non-disposable) bag and reducing the production of waste (promoting the 3Rs: reuse, reduce, and recycle).

A campaign on reducing solid and liquid marine waste in the three seaports (Piriápolis, Punta del Este and La Paloma) and key coastal enterprises (marine clubs, restaurants and bars), promoting marine good practices among the tourist operators, private ship captains and tourism business, with the support and participation of local authorities.

We're designing for the social media the different signals and designs, to reduce waste, using their own bag and messages with data and some awareness issues: responsible tourism.

Start the list of recommendations to promote the good practices in seaports (proposed to the marine authorities to evaluate).

Include some of these practices in the new brochure for the whale watching trips, and the special plastic one-side brochure for the guides.

## Community participatory meetings and actions to advance with management plan

3rd Anniversary of the Whales and dolphin Uruguayan Sanctuary and XIV Right Whale Week. Training courses Surveys of the community We realised an intensive schedule including different training courses, artistic and promotional events towards Sanctuary actions and the empowerment of local citizens, promoting in the media (TV, press and radios):

Local cetaceans Photo Exposition together Ministry of Tourism (more than 25 pictures A3 format full colour with legends and different issues: responsible tourism, the national whale day, the IWC, the National Sanctuary and the campaigns together OCC and the Ministry). This was successfully occured on a public space in the main street of a classic privileged space in Punta del Este (still remains 23/11/16);

Veterinarian Course for Response and First Aid in Stranded Cetaceans (three doctor's specialised form University of Sao Paulo Brazil). Two days theoretical and practical issues with a final certification for the participants. This course result in agreement between OCC and the NGO in which the doctors work, to reinforce the protocol on stranded cetaceans and the assistance in the Sanctuary Plan;

Course on the Bioacoustics' Cetacean as a tool for management in the Sanctuary (a specialist on bioacustic Dra Lilian Sander, University of Rio Grande do Sul);

Music concert, magister dissertation and dance integrated called "The Whale's Message"

https://www.youtube.com/watch?v=E 7CIAQdUps&list =PL5UB5skbWSFXTSXpVLKfuBZFtT4UrXkAN&index=18 (with two excellent concert musicians, the OCC director and a professional belly dancer) with a dinner offered and together top local authorities (tourism director of Intendancy, president of commission of environment and the mayor of the city Punta del Este, guides on tourism, people coming from the region, total 60). A survey about the knowledge of the sanctuary, their interest in participate active, consists in nine questions about this topics; begin with the assistance of the local University CURE Maldonado and their students. At this time more than 150 surveys was processing, including the e-mails for directly participation on events and actions. Videos of the events are still processing. Press releases of the event http://www.maldonado.gub.uy/gestion/files/25416\_7 a7f3c 25407 6fd528 Cronograma%20aniversario%20b allenas%202016.pdf https://www.occ.org.uy/article/xiv-semana-de-laballena-franca-3er-aniversario-de/ http://www.maldonadonoticias.com/beta/medioambiente/7406-preparan-celebraci%C3%B3n-por-eltercer-aniversario-del-santuario-de-ballenas-ydelfines-en-maldonado-y-rocha.html http://www.maldonadonoticias.com/beta/medioambiente/7464-este-lunes-comienza-la-xiv-semanade-la-ballena-franca-y-iii-aniversario-del-santuario-enmaldonado-y-rocha.html http://www.lapalomauruguay.com.uy/xiv-semana-dela-ballena/ Social media will make use of At least four uploads by week with the advances in all the faceboook and the official OCC activities planned and their results. https://www.facebook.com/OCC.Uruguay/?ref=bookma webpage. <u>rks</u> Including the participation as assessor and co-production in a regional documentary about whales and Sanctuary in Uruguay and Argentina, called "The Enchant of the Whales". This will be presented in December for

international cinema fairs and TV programs.

Scientific aspects involving the work with the plan management of the Sanctuary.

Also published in the IUCN CONGRESS as members this year 2016.

We started an agreement between OCC and the local University CURE

http://www.universidad.edu.uy/directorio/serviceMore Info/serviceId/65

For doing an intensive extracurricular course in 2017 (3 months of duration) with a collaboration of the specialist Dra. L. Sanders coming from University of Brazil, the course will be called "Bioacoustic on cetaceans: a tool for the management in AMP's". At the final of the course we pretend to have conform a team of advanced students leading the research for a long term time on this topic.

Participating in the IUCN WORLD CONGRESS with a poster about our SANCTUARY
