

Project Update: March 2010

5th March 2010

The slant to protect sunlight over each path of our RSG-Walk Way was finished. This style of slant also reduces the effect of the strong wind because there will be the space to let the air flow out.

10th March 2010

The members of Armanah Suksamran Credit Union Cooperation (Village Bank) visited our Mangrove Terrace at KCLC. This group of 55 attendants went to the RSG-Mangrove Living Nursery. Our new walkway has proven that it is strong enough to take all their weight. They also participated in replanting the mangrove species, especially before replanting we all pray for God to protect us. At the end all of us enjoyed the lunch together with happiness.

12th March 2010

The international study group of 15 attendants brought by Andaman Coastal Research station for Development Kasetsart University Research and Development Institute visited our RSG-Mangrove Terrace at KCLC. They were impressed about our project.

15th March 2010

We bought one table and two chairs to put into our nursery. Our visitors will use them for sitting and doing their work.

18th March 2010

The study group of 15 teachers and students from Ubolrajthani School visited our RSG-Mangrove Terrace at KCLC. They don't have mangrove forest in their territory since they live in the north-eastern part of Thailand. They were very excited to learn about our project.

26th March 2010

A group of 30 students from the area of Suksamram district included of Ban Phukaothng School, Ban Kamphuan School and Suksamran School visited RSG-Mangrove Terrace at KCLC. They enjoyed the outreach programme, visiting our Mangrove Living Laboratory at the Walkway Nursery. Finally, they all together replanted the Mangrove species in the degraded area at Prapas beach.
