

Project Update: April 2017

March 2017

Meeting with the students was held in order to inform them about the project and include them in preparing time schedule and dynamics of the project. Adopted conclusions were presented to the management of Public Enterprise for National Parks of Montenegro in order to inform and agree with them about main goals and expected results.

After agreements, a workshop on Balkan chamois conservation in NP Durmitor and NP Prokletije was prepared. Sixteen rangers, student representatives, director from NP Durmitor and NP Prokletije were present and we've been discussing and analysing the best way to developed field protocol, after presentation about status, ecology and behaviour of Balkan chamois. Field protocol for both parks is ready for use.

The workshop also aimed to inform employees from younger NP Prokletije about activities that have been conducted by NP Durmitor in past, in order to facilitate the organisation of activities in NP Prokletije.

Workshop Conservation of Balkan chamois

Working on transect definition

From hosting on national TV

April 2017

Workshop was promoted on website and Facebook page of Public enterprise for National Parks of Montenegro (<http://www.nparkovi.me/sajt/aktuelno/709-radionice-u-cilju->

[uspjenijeg-monitoringa-divokoze-u-np-durmitor-i-prokletije](#) & <https://www.facebook.com/Nparkovi/posts/1419404974787830>)

This issue was very interesting for media and many local newspapers reported it and we also participate 20 minutes on national TV station RTCG (Radio Televizija Crne Gore) explaining importance of this ACTION: <https://www.facebook.com/Nparkovi/posts/1422371554491172>
