

Project Update: August 2017

Just to keep you posted that recently (10th August, 2017) a small ceremony was conducted in the project villages to hand over beehives to the new beekeeping groups. The District Beekeeping Focal person (Beekeeping Officer) handed over the beehives on behalf of the rest of the project team. The ceremony was attended by the new group members and it was colourful. Members were really impressed. They appreciated and promised to work hard to ensure proper management of the beehives for the intended project objectives.
