

Project Update: August 2017

1) We are organising awareness raising activities about importance of protecting threatened animal species (snow leopards, wild sheep and wild goats) amongst the herd's people and community people of the target five sums (villages) since 5th June 2017.

2) We have created five nature clubs involving children since 5th June 2017 and strengthening community-based conservation efforts and inspire the next generation of nature conservationists.

3) We are advertising the project's activities for the herds' people and community people by broadcasting the activities through provincial' TV stations and Radio stations since 1st April 2017.

4) We are making some research about threatened animal species (snow leopards, wild sheep and wild goats).
