PROGRESS REPORT III

Association “C.E.Z.A.R.” was invited to the Volunteers meeting that was held from 9 till 11 July in the National park “Sutjeska” Tjentište (43.26, 18.73). We used the opportunity to present our project to the broader audience as the participants were from all over Bosnia and Herzegovina. We also used the opportunity to share our promotional material and to increase the visibility of our project that will have a huge impact on the raising of peoples awarness about the importance of the wildcats conservation.

As this region is natural hotspot in the biodiversity of Bosnia and Herzegovina and habitat of wildcats we discussed with the residents about the presence and activity of wildcats. The informations we received are not optimistic as the presence of this species is less then before.
