

## **Project Update: March 2024**

Avishek Sarkar, Arup Kumar das and Madhumita Borthakur presented a poster entitled "Geospatial modelling for identification of potential corridors along the protected area network of Brahmaputra riverine landscape around Orang Tiger Reserve, Assam" at a 2-day long technical workshop on "Role of protected areas for biodiversity conservation- A geospatial perspective" on 12th-13th March 2024 at Kaziranga Convention Centre, Assam.

The workshop was organised by Kaziranga Tiger Reserve and National Park in collaboration with IUCN-CEM, Assam State Space Application Centre, North East Space Application Centre and Aaranyak as knowledge partners. The presented poster was a part of the project supported by Rufford Small Grants entitled "Strengthening conservation of wildlife corridors within Brahmaputra riverine landscape of Orang Tiger Reserve and surrounding areas".
