

## Project Update: December 2023

### Field work

The field work in the study area has been completed by hiring a field assistant. Some field photos have been attached for your kind reference; hundreds of dung piles were examined during the study.

Elephant dungs containing plastic remnants.

Elephant herd in search of food.

I, myself in the field with Forest people.

### **Awareness programmes**

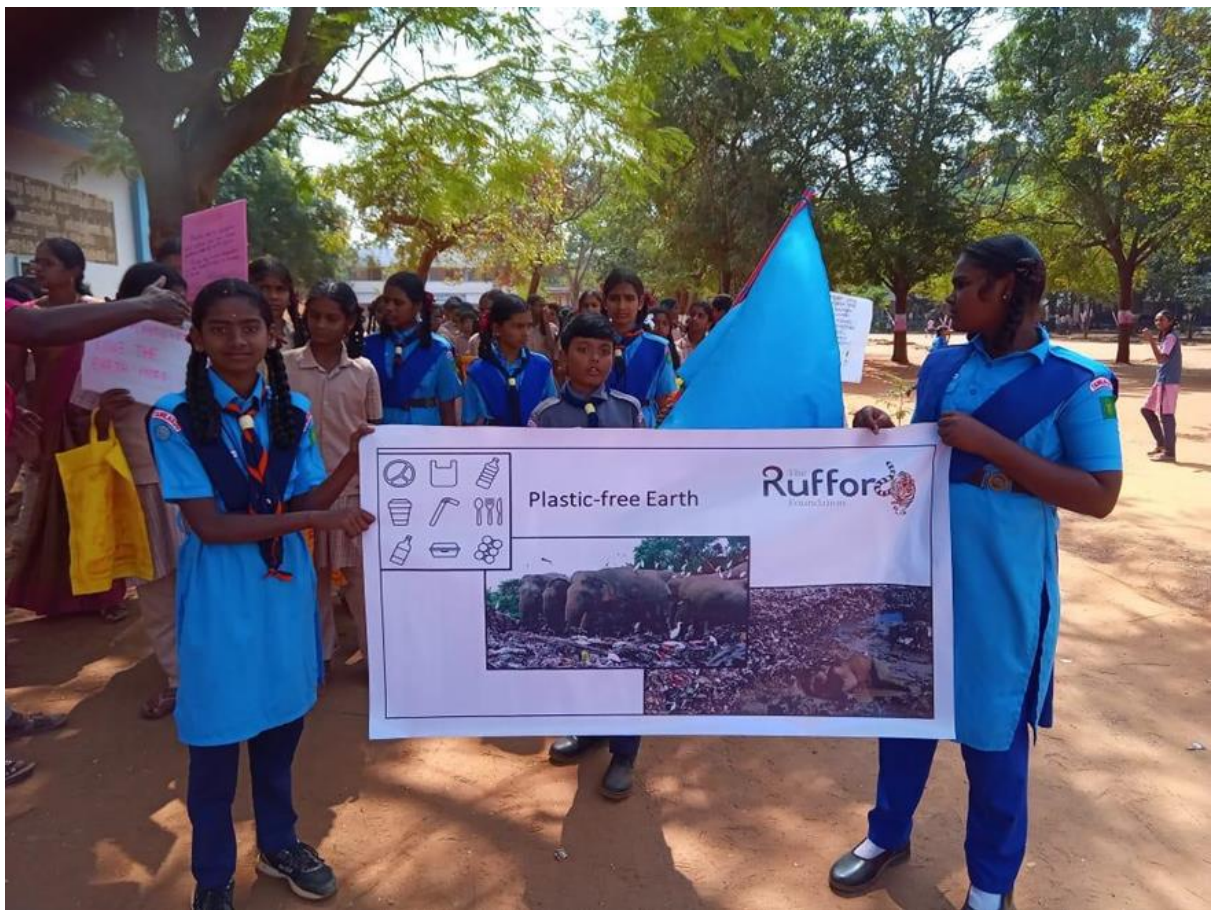

An awareness programme has been conducted in schools for students in collaboration with Eco- coordinators of Schools. Initially, a test was given to students to test their knowledge on single use plastic and a session was conducted to make them aware of the potential harmful effects of plastics on Earth.

Awareness program in schools against the use of plastics

An awareness rally against plastic use was conducted in collaboration with a school.
