

Project Update May 2024

Subsequent field missions were carried out, in January (15-22), February (13-20), March (13-20) and April (14-21) 2024. These missions were aimed at monitoring Swift recorders installed in the Yoko Council Forest. Termite as well as rust infested devices were cleaned, SD cards were replaced with newly formatted 32GB as well as collect présence indices during reconnaissance walks.

Please find attached some field photos.
