

The Rufford Small Grants Foundation

Final Report

Congratulations on the completion of your project that was supported by The Rufford Small Grants Foundation.

We ask all grant recipients to complete a Final Report Form that helps us to gauge the success of our grant giving. The Final Report must be sent in **word format** and not PDF format or any other format. We understand that projects often do not follow the predicted course but knowledge of your experiences is valuable to us and others who may be undertaking similar work. Please be as honest as you can in answering the questions – remember that negative experiences are just as valuable as positive ones if they help others to learn from them.

Please complete the form in English and be as clear and concise as you can. Please note that the information may be edited for clarity. We will ask for further information if required. If you have any other materials produced by the project, particularly a few relevant photographs please send these to us separately.

Please submit your final report to jane@rufford.org.

Thank you for your help.

Josh Cole, Grants Director

Grant Recipient Deta	ils
Your name	Loeung Kesaro
Project title	Empowerment and capacity building of community fishery committee in undertaking community-based aquatic resources (wetland) management and conservation, Trapeang Thma Reservoir, Cambodia
RSG reference	49.04.08
Reporting period	1 August 2008 – 30 July 2009
Amount of grant	£5990
Your email address	ksrloeung@gmail.com
Date of this report	January 2010

1. Please indicate the level of achievement of the project's original objectives and include any relevant comments on factors affecting this.

Objective	Not achieved	Partially achieved	Fully achieved	Comments
(i) To organise consultative meetings on the newly proposed communal fish sanctuary (size and location)			X	The local community fishery management committee initiated communications with concerned social actors including local authorities, and public and civil agencies to seek their cooperation and collaboration on the conservation of wild aquatic resources in the Trapeang Thma reservoir through the creation of a new fish sanctuary. On 25 August 2008, a public consultative meeting was held at the project site (Paoy Char Buddhism monk monastery in Paoy Char commune, Phnum Srok district, Banteay Meanchey province). 71 participants attended. They were representatives of commune councils, village heads, village elders, Trapeang Thma community fishery management committee, sub-committees, and a non-governmental organization active in the field (Wildlife Conservation Society - Cambodia Program). A representative from the provincial fisheries office was absent. The objective of the meeting was to get a consensus from relevant stakeholders on the establishment of a new fish sanctuary with financial support from the Rufford Small Grant. During the opening speech, the Paoy Char commune head, Mr. Peng Bun Tara said "today's gathering is important for the future benefits of local people, especially the population of the whole commune". Mr. Tak Buoy, head of the Trapeang Thma community fishery said "the community fishery faces many problems and is in need of assistance. Now with funding from the donor (Rufford grant), we, the management committee would like to create a new fish conservation area in the Trapeang Thma reservoir". The Head of the local wildlife conservation team of the wildlife conservation society, Mr. Luk Rithy said " in the year 2003, we assisted the community fishery to create a 36ha fish sanctuary. Now the community has received USD12 000 (£5999) from the Rufford Small Grant to implement a new sanctuary". We strongly support this project. Although the provincial fisheries office was not present at the meeting, they welcome the project and support the creation of a second fish sanctuary. At the end of discussion

		establishment of Lou Suong Fish Sanctuary covering a total of 150ha. The governmental Sub Decree on Community Fisheries Management (June 2005) encourages any established community fishery in the country to create fish sanctuary within their communal fishing domain for the benefits of their future generations. List of participants is in Annex 1.
(ii) To identify its administrative boundaries and produce map	x	The decision of creating the new fish sanctuary in the reservoir was made at the meeting as already described. Later wooden poles were used to demarcate boundaries. There was a concern that some fishers would lose their fishing grounds and their catches would decline. They then requested to move a "nocatch zone" to somewhere else. To address the issue, two meetings with the affected fishers were organized by the community fishery management committee (see Annex 2 for list of participants). After the meetings, those affected fishers had voluntarily offered their labour and time to identify an appropriate area together with the local management team. Finally, a compromise was made and all individuals involved were happy. GPS Coordinates of boundaries are in annex 3.
(iii) To demarcate physical boundaries of the established fish sanctuary	х	90 wooden poles were put in the field to physically demarcate the boundaries of the newly created Lou Suong Fish Sanctuary within the Trapeang Thma reservoir. The area was then declared a no-catch zone and no public fishing activities, even traditional or family-scale fishing gears were allowed, according to the local Trapeang Thma Community Fishery by-laws. The poles are believed to be long-lasting with a life-span of at least 10 years.
(iv) To put signs on the site to inform the public	х	1 large sign board (80cm x 150cm) and 8 small sign boards (30cm x 40 cm) were erected to inform the public of the area being protected and conserved for fish spawning and breeding.
(v) To carry out public environmental promotional campaigns to other community groups to disseminate information and gain their support and participation in the	x	The local team consisting of the following members of the Trapeang Thma Community Fishery Committee carried out outreach activities: 1. Tak Bouy, Chairman 2. Phan Ngoc, Vice chairman 3. Riem Champey 4. Hem Sokhom 5. Khuot Khuon 6. Pich Ham

sanctuary	The team in cooneration with commune heads and
sanctuary	The team, in cooperation with commune heads and village heads, had organized and conducted meetings with villagers/fishers to raise pubic awareness on (i) governmental policy on decentralised fisheries resources management, (ii) local institutional arrangements to manage aquatic resources in Trapeang Thma reservoir including community fishery by-laws (resources use rules and regulations) and local governance structure, and (iii) creation of fish sanctuaries (no catch zones) in the reservoir. The meetings provided opportunities for villagers to interact and voice their concerns over the use and management of aquatic resources. The meetings were held on the following places and dates: - Paoy Char commune, Phnum Srok district 1. Pongro village on 01 September 2008 (08:30-
	10:45hrs)attended by 62 villagers in which 14 were women;
	2. Sambour village on 02 September 2008 (09:00-10:45hrs) attended by 68 villagers in which 28 were women;
	3. Ta Ong village on 03 September 2008 (08:50-11:00hrs)attended by 54 villagers in which 22 were women;
	4. Paoy Snuol village on 22 September 2008 (14:00-16:10hrs) attended by 62 villagers in which 18 were women;
	5. Paoy Char village on 23 September 2008 (14:00-16:00hrs) attended by 69 villagers in which 37 were women;
	6. Trapeang Thma Buddhism pagoda attended by villagers from three villages (Trapeang Thma Thbong, Trapeang Thma Choeung and Trapeang Thma Kandal) on 24 September 2008 (08:30-10:30hrs) and participated by 97 villagers in which 42 were women;
	7. Boeung Raing village on 25 September 2008 (08:30-10:30hrs) attended by 77 villagers in which 32 were women;
	8. Kiri Konkhlaeng Buddhism pagoda attended by villagers from four villages (Konkhlaeng, Prah Andong, Changva Tuk, Srah Srang) on 26 September 2008 (08:40-10:45hrs) attended by 151 villagers in
	which 100 were women;

9. Pheas village on 26 September 2008 (14:00hrs) attended by 22 villagers in which 5 were women;

Ponley commune, Phnum Srok district

		 Po Ram Bon village on 03 October 2008 (09:00-10:45hrs) attended by 83 villagers in which 9 were women; Kok Ta Sok village on 03 October 2008 (14:00-15:30hrs) attended by 60 villagers in which 19 were women; Ta Vong village on 04 October 2008 (08:30-10:30hrs) attended by 79 villagers in which 50 were women; Svay Khmao village on 04 October 2008 (14:00-15:45hrs)attended by 71 villagers in which 48 were women; Ponley village on 05 October 2008 (08:40-10:30hrs) attended by 98 villagers in which 67 were women; Chhuk Ang village on 05 October 2008 (14:00-15:30hrs) attended by 27 villagers in which 15 were women; Namtao commune, Phnum Srok district Kong Seam and Ampil Kaong villages on 12 October 2008 (09:00-10:30hrs) attended by 107 villagers in which 70 were women; Yeang Udom village attended by villagers from three villages (Yeang Udom, Slar Kram, Po Poul) on 12 October 2008 (14:00-15:30hrs) and participated by 49 villagers in which 28 were women; Total: 25 villages, 1236 villagers in which 604 were
(vi) To conduct local study visits to successful community fishery sites in the country to exchange experience.	X	- Two project staff (Mr. Tak Buoy, head, and Ms. Riem Champey, an extension) of the Trapeang Thma community fishery) attended the National Symposium entitled "Emerging Trends, Challenges and Innovations for Community-based Natural Resources Management (CBNRM) in Cambodia". The event was held from 10-11 September 2008 at the Phnom Penh Hotel, and was organized by the CBNRM Learning Institute. The gathering provided a good opportunity to gain a better understanding on decentralized policies and practices. They had shared and disseminated what they had gained from the meeting to villagers during environmental promotional campaigns. All expenses, including the costs of transportation, meals and accommodations for the two participants, were born by the event organizers. - Six project staff visited Phneat Koh Pong Sat community fishery, which is located in Banteay Meanchey province, on 15 March 2009. The purpose was to exchange experiences and lessons learned on

	the management of a no-catch zone, or fish sanctuary. Phneat Koh Pong Sat community fishery is a successful site to learn about fish sanctuary management in the province. - Four project staff visited Aphiwat commune, Teuk Phos district, Kampong Chhnang province in January 2010. The purpose was to meet with local villagers to learn about flooded trees. They wanted to plant trees in the newly established fish sanctuary in Trapeang Thma reservoir.
--	---

2. Please explain any unforeseen difficulties that arose during the project and how these were tackled (if relevant).

Inflation of currency which has affected the exchange rate and thus project expenses (see point no. 8 below)

3. Briefly describe the three most important outcomes of your project.

- First, a new fish sanctuary site had been established. Coordinates of the site are A (312222, 1525528), B (313243, 1525235), C (313462, 1526319), and D (312333, 1526610). The size of the area is 1,204,764 m². An administrative map was produced (Figure 1 attached). 90 wooden poles were erected to demarcate physical boundaries. Eight sign boards (30cm x 40cm) were attached to the poles. The signs read "please keep out of the fish sanctuary". In addition, one big-sized sign (80cm x 150cm) made of iron was placed on the pass-by where villagers can easily see. The RSG logo was printed on the sign.
- Second, the capacity of local community fishery management committee had been improved and empowered. Two committee members (a committee head and an extension staff) were sent to attend national symposiums within the country (e.g., in Phnom Penh). Six committee members visited another community fishery site within the province to exchange and share experiences on management of fish sanctuaries. Six committee members were given monthly incentives to encourage them to carry out environmental promotional campaigns on the decentralised fisheries resources management approach. The fisheries office of Banteay Meanchey province had selected the project site to host a meeting where representatives from other community fisheries within the province met and discussed community-based communal fisheries resources management.
- Third, local social capital such as trust, cooperation, collaboration and reciprocity among local people had been enhanced. The local community fishery had received good support from local authorities including district office, commune councils, communal police and army to enforce communal resources and use rules and regulations. In addition, the provincial fisheries office, a non-governmental organisation (WCS) and villagers support the community fishery to establish Lou Suong fish sanctuary. Local fishers had voluntarily handed over electrocuting devices, which are considered illegal fishing gears, to local authorities and the community fishery management committee.

4. Briefly describe the involvement of local communities and how they have benefitted from the project (if relevant).

See number 1 described above for the involvement of local communities in the project. At least the total population in Phnum Srok district alone which consisted of 52,595 persons. Of this number, 26,595 or 51.12% were women (Population census, Phnum Srok District Office, 2005), will benefit from the project. They are mainly farmers (rain-fed paddy rice cultivators or producers), and have used the Trapeang Thma resources (fishing and collecting wetland resources) more in their daily lives, as compared with other farmers from the other three surrounding districts.

5. Are there any plans to continue this work?

The local community would like to put forward their project proposal for financial support for the next step. Local communities, local authority and technical line agency (provincial fisheries office) would be most grateful if the grant is provided to further strengthen local institutional capacity to undertake decentralization of communal resources management and conservation activities on ground.

6. How do you plan to share the results of your work with others?

The report of this project is posted at the Rufford small grant website. Thus, it is accessible to the public. Comments from readers are welcome.

7. Timescale: Over what period was the RSG used? How does this compare to the anticipated or actual length of the project?

The RSG was used over the period of 12 months as planned and proposed.

8. Budget: Please provide a breakdown of budgeted versus actual expenditure and the reasons for any differences. All figures should be in £ sterling, indicating the local exchange rate used.

Item	Budgeted	Actual	Difference	Comments
	Amount	Amount		
Project staff				
- Mr. Loeung Kesaro	1500£	1500€	0	
- Mr. Tak Buoy	300€ (€25/mo x 12mo)	Aug'08 (26.49£) Sep'08 (26.25£) Oct'08 (29.46£) Nov'08 (31.84£) Dec'08 (33.78£) Jan'09 (33.99£)	-70.25 €	Exchange rate proposed for the project was £1=8,000 Riel (April 2008). Based on this exchange rate, the agreement was made on the condition that each community fishery committee will receive a fixed monthly incentive (salary) of 200,000Riel throughout the project life (i.e., during the 12 month- project implementation period). There was inflation during the project

Therefore, prior approval from the director is solicited. Otherwise, please advice on what to do with the balance.

9. Looking ahead, what do you feel are the important next steps?

Trapeang Thma community fishery was established in 2003. The great success of local participation in resources management is not guaranteed. Further support, both technical and financial to enable them undertaking decentralised fisheries resources management is pre-requisite.

10. Did you use the RSGF logo in any materials produced in relation to this project? Did the RSGF receive any publicity during the course of your work?

Yes, RSGF logo was used during the stakeholder consultation meetings, the public campaigns to 25 villages and also was printed on signs putting on ground on the project site which is visible to the public. As long as the sign which is made of iron is standing and written letters are not corroded by wind, the logo is still visible.

No, the RSGF did not receive any publicity during the course of work, but infrequently progress report

11. Any other comments?

I would like to express my thankfulness to the RSG for financial support to make this project run smoothly. I am grateful to Mr. William Murray for introducing the grant and for his advice and guidance during the project proposal development and implementation. I am likewise thankful to

the provincial fisheries office of Banteay Meanchey province (especially Mr. Ly Veng), the Wildlife Conservation Society- Cambodia Programme (especially Mr. Hong Chamnan) for collaboration and cooperation with the project. I am grateful to the local community of Phnom Srok district, especially the head of Paoy Char commune (Mr. Peng Bun Thara), the Trapeang Thma wildlife conservation team and the villagers in the commune for active cooperation and participation in making this project successfully completed. Another point I would like to make is that being a project manager, I have learned a good lesson- that is always be careful of monitoring project fund (i.e., inflation rate which is unforeseen has affected on the project budget).
