

Project Update: November 2010

Initially scheduled for September 2010 but postponed for better planning, we rescheduled and held the Bamenda Symposium on Medicinal Wildlife on 10th November 10 2010. It was chaired by the Regional Delegate of Forestry and Wildlife – North West Region, flanked by Regional Delegate of Public Health and President of North West Union of Tradipractioners. Symposium Reports:

- Study results presented.
- Poster unveiled and distributed.
- Paper presented on the legal means of acquiring medicinal wildlife, by a government official.
- Participating wildlife biologist questioned why our poster features species extinct in study site. Medicinal-Wildlife Sketch presented.
- Recommendations on necessary actions for government services, conservation organisations and tradipractioners made through group works.
- Presented 30 minutes of radio-talk on Sustainable Medicinal Wildlife and poster over CRTV Bamenda (15/11/2010).
