

The Rufford Small Grants Foundation

Final Report

Congratulations on the completion of your project that was supported by The Rufford Small Grants Foundation.

We ask all grant recipients to complete a Final Report Form that helps us to gauge the success of our grant giving. The Final Report must be sent in **word format** and not PDF format or any other format. We understand that projects often do not follow the predicted course but knowledge of your experiences is valuable to us and others who may be undertaking similar work. Please be as honest as you can in answering the questions – remember that negative experiences are just as valuable as positive ones if they help others to learn from them.

Please complete the form in English and be as clear and concise as you can. Please note that the information may be edited for clarity. We will ask for further information if required. If you have any other materials produced by the project, particularly a few relevant photographs, please send these to us separately.

Please submit your final report to jane@rufford.org.

Thank you for your help.

Josh Cole, Grants Director

Grant Recipient Details

Your name	Dovutsho Navruzshoev
Project title	The Flora Vakhan part of mountainous Badakhshan (Pamir)
RSG reference	Rufford Small Grant for Nature Conservation Application
Reporting period	August 2010 till January 2012
Amount of grant	£5155
Your email address	dovutsho@mail.ru
Date of this report	25.06.2012

1. Please indicate the level of achievement of the project's original objectives and include any relevant comments on factors affecting this.

Objective	Not achieved	Partially achieved	Fully achieved	Comments
Studying of the Flora Vakhan	We collect the herbaria material	Study the resources of live rare species	We collect the material for Red Book of Badakhshan	We travelled in all parts of Vakhan and Badakhshan and collected the herbaria material and studied the Fauna of Badakhshan.
Collect the herbaria material	We collected more than 1000 herbaria specimens	We achieved our purpose	Collected the scientific material	We collected the material for Red Book Badakhshan
To plant the collected material in Botanical garden	We collected the plant material and planted in Botanical garden	We achieved our purpose	We collected the plant material of 112 rare species of Badakhshan	During the work we collected the herbaria material and fauna of Badakhshan
To make exhibition place for plant material	In Botanical garden we made the exhibition for rare species	Now we have the exhibition of rare plants	We achieved our purpose In Vakhan	We started to make the exhibition place
Studying collected plants in Botanical garden	We started work with introduction of plants in Botanical garden	We worked and studied rare and other plants in Botanical garden	We achieved our purpose	We work with planting material in Botanical garden
To prepare the cards for each plant	We gave the history of each plants	We achieved our purpose	We achieved our purpose	We started to do the history of each plant
The place of collecting plants	We collected the herbaria material in Vakhan and know the place of	We achieved our purpose	We achieved our purpose	During the period we found the place more 500 species

	each plant			
The systematic place of plants	We identify the species name	We achieved our purpose	We achieved our purpose	With books Flora Tajikistan TT.1-10, and Defintoriun plantarum vascularium Pamir we identified the species name
To make the scheme of cards	We made the scheme of cards	We achieved our purpose	We achieved our purpose	We made the scheme for all plants
To collect all information on these plants	Started to collect information of each plant	We achieved our purpose	We achieved our purpose	We started work with literature and compared it with our information

2. Please explain any unforeseen difficulties that arose during the project and how these were tackled (if relevant).

The main unforeseen difficulty is the roads this territory.

3. Briefly describe the three most important outcomes of your project.

- a) We collected the plants.
- b) We made the exhibition of plants in Botanical garden.
- c) We gave the systematic names of species.

4. Briefly describe the involvement of local communities and how they have benefitted from the project (if relevant).

We study the use the plants as medical resources.

5. Are there any plans to continue this work?

There are lots of plants to develop and continue this work in Badakhshan. I finished collecting the material for Red book of Badakhshan. We now need money for publication of the book.

6. How do you plan to share the results of your work with others?

I publish the useful medicinal plants of Badakhshan and now I want to publish other material.

7. Timescale: Over what period was the RSG used? How does this compare to the anticipated or actual length of the project?

I start work from spring to autumn. I collect the plant material and in winter identify the name of species.

8. Budget: Please provide a breakdown of budgeted versus actual expenditure and the reasons for any differences. All figures should be in US Dollars, indicating the local exchange rate used.

Item	Budgeted Amount	Actual Amount	Difference	Comments
Research worker 25\$ per day. 91 days x 25\$	2275\$	2275\$	0	
Two worker one worker 10\$ per day two workers 91 days x 10\$	1820\$	1820\$	0	
Drive per day 35\$ x 91days x35\$	3185\$	3185\$	0	
Petrol 20L. Per 100km x1\$, in total=8.750km, Motor oil 4Lx5\$=20\$	2013.8	2013.8\$	0	
Purchasing equipment pick, plants press, paper, string, shovel, bucket, camera	700\$	700\$	0	
Total	9994.5\$	9994.5	0	

9. Looking ahead, what do you feel are the important next steps?

We make the exhibition place for rare and another plants in Botanical garden. Finish the material for Red Book of Badakhshan.

10. Did you use the RSGF logo in any materials produced in relation to this project? Did the RSGF receive any publicity during the course of your work?

I used the RSGF logo in my publication. I send my publication to RSGF during the course of my work.

11. Any other comments?

Finish work with research material and start to publish the material.
